

## EVENT THEME

-  Energy Policy
-  Production
-  Sustainability

Energy policy, production, and sustainability are closely related themes that are critical to the development and growth of the oil and gas industry. Energy policy refers to the government's plan for meeting energy needs through a mix of domestic and foreign sources, production refers to the extraction and processing of oil and gas resources, and sustainability refers to the responsible management of these resources. An effective energy policy balances economic development with environmental protection and reducing dependence on non-renewable resources, promoting the use of renewable energy sources and improving energy efficiency.

# OIL & GAS

## CONFERENCE & EXHIBITION PAKISTAN

13th October, 2023  
Serena Hotel, Islamabad

(OGCEP2023)  
[www.energyupdate.com.pk](http://www.energyupdate.com.pk)

In Collaboration with:

Ministry of Energy  
(Petroleum Division)  
Government of Pakistan

Oil & Gas  
Regulatory Authority

Event Managed by:

# INDUSTRY OVERVIEW

The Oil & Gas Regulatory Authority (OGRA) plays a significant role in the country's economy, with the majority of Pakistan's energy needs being met through oil and gas imports. Pakistan has proven reserves of natural gas, coal, and small amounts of oil. The government of Pakistan has been making efforts to increase domestic production and exploration to reduce dependence on imports.

OGRA plays a key role in regulating and monitoring the oil and gas sector in Pakistan. OGRA issues licenses, sets prices, and ensures compliance with regulations. The Authority also monitors the performance of the sector, and takes steps to protect the interests of consumers.

Oil & Gas Development Company Limited (OGDCL) and Pakistan Petroleum Limited (PPL) are the two major state-owned oil and gas exploration and production companies in the country. Pakistan State Oil (PSO) is the largest oil marketing company in Pakistan.

According to the Pakistan Bureau of Statistics, in 2020, Pakistan imported \$13.5 billion worth of crude oil and petroleum products, which accounted for about 25% of the total import bill. Whereas, the BP Statistical Review of World Energy 2020 says that Pakistan's total primary energy consumption was around 34.5 Mtoe, of which oil and natural gas accounted for about 57%. Pakistan's natural gas production was around 4.5 billion cubic feet per day (bcf/d) in 2020.

## OBJECTIVES

- ✓ To provide a platform for industry professionals to share their knowledge, experiences and latest developments in the field
- ✓ To provide an opportunity for companies to showcase their latest products and services
- ✓ To provide an opportunity for investors to identify potential investment opportunities in the industry
- ✓ To provide an opportunity for networking among the participants

# CONFERENCE TOPICS

- ✓ The impact of global oil prices on the Pakistani economy
- ✓ The future of natural gas in Pakistan
- ✓ The role of LNG in Pakistan
- ✓ Limited domestic production and high dependence on imports
- ✓ Low domestic prices of natural gas compared to international prices
- ✓ Limited infrastructure for the transportation and storage of oil and gas
- ✓ Inadequate investment in exploration and production activities
- ✓ Volatility in global oil pricing and international deals
- ✓ Increased competition from renewable energy sources
- ✓ Increasing pressure to reduce greenhouse gas emissions
- ✓ Political and economic instability in major oil-producing countries
- ✓ Advancements in technology and innovation

## EXPECTED OUTCOMES

- Development of new business and expansion of existing business relationships
- Identification of new investment opportunities and new technologies and services
- Increased knowledge and understanding of the industry
- Exposure to industry trends and developments
- State policy direction in overcoming the industry challenges

# CONFERENCE PARTICIPANTS

This interactive conference will attract around 250 participants from national and international Oil, Gas and Power Industries; including Foreign Delegates, Consultants, Investors & Financers, Banks & DFIs, Research Labs, OEMs Suppliers, O&M Contractors, Energy Experts, Economist, Government Departments, Academia and Media.

# EXHIBITORS

*The local and international oil & gas companies; and foreign commercial consulates are allowed to showcase their products and services at this international forum.*

Please contact the organizer for further details.

## EVENT ORGANIZER

Monthly Energy Update – Pakistan's premier monthly magazine dedicated to the Energy Sector, Power Generation, Oil & Gas, Alternate & renewable Energy, Environment and Engineering. It was important and vibrant sector lacked a dedicated publication, and it is the stated aim of the magazine to become the 'voice of industry'. The magazine has completed its journey of 17-years of successful publications.

The Team Energy Update is also actively engaged in providing platforms for Energy Industry by organizing and managing various successful events in recent past like Solar Clean Energy Pakistan, Conferences on LNG and CNG-CONEX, LPG, Hydropower, PowerGen-Pak, Wind Energy Summit as well as Webinars on Renewable Energy. These interactive events were largely attended by local & international delegates and government officials.

**1<sup>ST</sup> INTERNATIONAL OIL & GAS**  
**CONFERENCE & EXHIBITION PAKISTAN**  
**October 13, 2023 |** SERENA HOTEL, ISLAMABAD

**CONFERENCE REGISTRATION FORM**

Name of Participant(s):

1. \_\_\_\_\_ 2. \_\_\_\_\_  
3. \_\_\_\_\_ 4. \_\_\_\_\_
