

Registration :: 14th National Convention on Fire Safety and Security 2024

Dear Sir/ Madam

Assalam o Alykum

The Annual Fire & Safety Convention has gained momentum in creating Awareness about **Occupational Health & Safety, Encouraging Best Practices and providing an Interactive Platform** for all corporate organizations, industries as well as Professionals & Individuals serving within the Fire, Safety & Security departments.

The "14th International Fire, Safety & Security Convention Pakistan : IFSSCP-2022" scheduled on **December 12, 2024 at Karachi Movenpick Hotel**. The 14th IFSSCP-2024 is being organized by the **National Forum for Environment and Health (NFEH)** in association with the **Fire Protection Industry of Pakistan (FPIP)** after the successful organizations of Fire & Safety Conventions in years of 2010, 2011, 2012, 2013 2015 2016 2017 2018 2019 2020 2021 2022 and 2023.

This year, the IFSSCP-2024 will be witnessing **250 Corporate Individuals**; including Chairmen, CEOs, HoDs from HSE/EHS/SHE, Security and Administration Departments, Safety Consultants and Auditors, Safety & Security Equipment Distributors/Re-sellers, Academia and Media.

This is indeed a **Good Training Session for Professionals and Best Networking Platform** for exhibiting companies to interact at the Convention with industry mover-and-shakers; especially at the Glittering Ceremony of the **"Fire & Safety AWARDS-2024"** to be given in multiple disciplines; including equipping with and introducing latest technology tools and accessories in their organizations.

We believe that your esteemed organization is giving highest regard in protecting **-"the precious Human Lives and Assets"**. This convention will further enhance your organization's positive images among the stakeholders, customers and employees; while giving your team **unmatched 'Learning and Networking opportunities'**.

We look forward **your esteemed organization's strong participation.**

Thanking you,

Engr Nadeem Ashraf

About 14th IFSSC 2024

International Fire Safety and Security Convention 2024 (IFSSC) is an unique platform of think tanks exclusively designed for fire, safety and security professionals by National Forum for Environment & Health (NFEH). The convention will enable the attendees to learn from the local and international experts about utilization of latest tools and techniques for safeguarding people and assets. The 14th IFSSC 2024 is strongly supported by the **Fire Protection Industry of Pakistan (FPIP)**, **All Pakistan Security Agencies Association Pakistan (APSAA)**, **Pakistan HSE Professionals Association (PHPA)**, **Karachi Metropolitan Corporation**, **Rescue 1122 Karachi**, and **Government of Sindh**. The IFSSC outcomes will be widely covered by an official event magazine; **Monthly Energy Update**.

International Conference

The **14th Fire Safety and Security Conference 2024** is especially designed for the professionals working in Admin, Health, Safety, Security departments and the individuals related to fire, safety and Security like NGO activists, media, training and consulting organizations, IT and security personnel and proactive citizens.

The conference experts will share their views and hands-on-experiences with the conference delegates, about the latest developments that are being utilized worldwide (fire, safety, Security tools and machines, scanners, transfer of technology and investment opportunities, new safety and standard rules and its overall impact on environment and government Initiatives) while focusing on developing markets of Southeast Asia, Middle East and Pakistan.

Industry Overview

Pakistan has been facing safety and security threats since its independence but unfortunately, safety measures were taken inadequately in securing human lives and their assets, the safety has become an integral part for both human beings and their developing assets such as homes, offices, shops, residential and commercial buildings. Shopping malls, factories and plants. To strengthen the public safety and security in the metropolitan cities of Pakistan, special tools such as CCTV and Satellite Tracking Systems are being installed everywhere to curb crime and maintain justice. It has been observed that many commercial buildings, oil plants and industries come under fire worldwide and in Pakistan and mostly due to inadequate safety measures or non-competent safety or security professionals, billions of dollars/rupees are being lost every year and huge compensations have to be paid to the affected people by the employers or insurance companies.

CONFERENCE TOPICS:

- Responsibility of HSE Department during Natural disasters.
- Practical approach of Safety & Security in Pakistan
- How to Beat Terrorism at all level?
- Construction & Workers Safety
- Security Guards Duties at Educational Institutions
- Safety Policy, Audits and Compliances
- Green Homes and Buildings - Passive Fire Protection.
- Hydrants, Drills and Safe Exit - Active Fire Protection.
- Insurance and Compensation.
- Invest in Latest IT & Automation Technologies.
- Safety & Admin Depts duties at Emergency
- Road Safety - Training, Monitoring & Penalties.
