CONFERENCE ON SINDH ENERGY DIVERSITY

Introduction:

Sindh, a province rich in diverse energy resources, stands at the forefront of Pakistan's energy revolution. With vast reserves of coal in the Thar region, significant potential for renewable energy, and substantial oil and gas resources, Sindh is poised to be a leader in energy diversity. This conference aims to explore the integration of traditional and renewable energy sources, emphasizing sustainable development and economic growth.

Coal Reserves: The Thar coalfield is one of the largest in the world, with estimated reserves of over 175 billion tons.

Oil & Gas: Sindh contributes significantly to Pakistan's Oil & Gas production, with important fields in the Badin and Kirthar regions.

Renewable Energy: Sindh has an estimated Solar potential of over 60 GW and significant Wind energy potential, especially in the Jhimpir-Gharo corridor.

International Context: Globally, energy diversification is critical for ensuring energy security, economic stability, and environmental sustainability. Countries like China and India have successfully integrated coal, oil, and renewable energy sources, setting examples for balanced energy strategies.

CONFERENCE ON SINDH ENERGY DIVERSITY

Conference Objectives:

- To bring together stakeholders from various sectors to discuss and develop strategies for leveraging Sindh's diverse energy resources, economic growth and sustainable development.
- To facilitate learning and networking opportunities, enabling participants to exchange knowledge, share best practices, and form partnerships that will drive the sustainable and diversified energy future of Sindh.

CONFERENCE ON SINDH ENERGY DIVERSITY

Topics and Thematic Sessions:

Overview of Sindh's Energy Landscape:

- Presenting current energy resources and their utilization.
- Discussing the potential and challenges of energy diversification.

Coal Energy: Opportunities and Innovations:

- Exploring the economic impact of Thar coal reserves.
- Innovative technologies for cleaner coal extraction and usage.

Renewable Energy: The Future of Sindh:

- Solar and wind energy potential and projects.
- Success stories and future opportunities in renewable energy.

Integrating Energy Sources for Sustainable Development:

- Strategies for balancing coal, oil & gas, and renewable energy.
- Technological innovations for efficient energy integration.

Aligning with SDGs:

- Contribution of diverse energy sources to SDG 7 (Affordable and Clean Energy).
- Impact on other SDGs, including economic growth (SDG 8), industry innovation (SDG 9), and climate action (SDG 13).

CONFERENCE ON SINDH ENERGY DIVERSITY

Conference Agenda:

- Opening Ceremony and Keynote Speeches
- Session 1:** Overview of Sindh's Energy Landscape
- Session 2:** Coal Energy: Opportunities and Innovations
- Networking Lunch Break
- Session 3:** Renewable Energy: The Future of Sindh
- Session 4:** Panel Discussion on Integrating Energy Sources for Sustainable Development
- Session 5:** Aligning with SDGs
- Closing Ceremony and Summary of Outcomes

Expected Outcomes:

- Action Plan: Development of a comprehensive action plan for leveraging Sindh's energy resources.
- Partnerships: Establishment of new partnerships between local and international stakeholders.
- Investment Opportunities: Identification of investment opportunities in both coal and renewable energy sectors.
- Policy Recommendations: Formulation of policy recommendations for government and industry to support energy diversification.

CONFERENCE ON SINDH ENERGY DIVERSITY

Participants:

The conference will bring together local and international investors, government officials, energy experts, industry leaders, community representatives, and international organization; like the World Bank, ADB, and UNDP.

About the Organizer:

Monthly Energy Update is Pakistan's leading magazine focused on the Energy Sector, covering Power Generation, Oil & Gas, Alternate & Renewable Energy, Environment, and Engineering. The team actively organizes significant events like Solar Clean Energy Pakistan, LNG and CNG-CONEX Conferences, LPG ExpoCon, Wind Energy Summit, and Renewable Energy Webinars and Roadshows, drawing both local and international delegates and government officials.
