# CSR 2026 AWARDS

February 2026  
Serena Hotel, Islamabad

## Introduction:

The National Forum for Environment and Health (NFEH) is proud to present the 18th NFEH's CSR (Corporate Social Responsibility) Awards-2026. For nearly two decades, this initiative has recognized and celebrated organizations across Pakistan that have integrated social and environmental concerns into their core business strategies. This year, we highlight the pivotal role of CSR in driving sustainable development. The Securities and Exchange Commission of Pakistan (SECP) has been instrumental in this shift, issuing guidelines that underscore the national commitment to responsible business practices and greater accountability.

The impact of these efforts is significant. According to a report by the OICCI, foreign investors in Pakistan contributed nearly PKR 13 billion to CSR initiatives in a single fiscal year, benefiting over 40 million individuals. This demonstrates the growing scale and strategic importance of corporate philanthropy in our country.

This annual event will continue to honor both national and international organizations that are leading this change, with a special focus on those whose initiatives align with critical national priorities and SDGs.
